

Repair crews continue to rebuild the slope below the highway at postmile marker 28.80, approximately 2.5 miles east of La Cañada Flintridge.

**Angeles Crest Highway (SR-2) repairs continue 2.5 miles east of La Cañada Flintridge. The highway is estimated to open Spring 2011.**

View from the south.

View from the east.

The rockslide at Browns Canyon (post mile marker 28.24) has been contained.

**Update March 7, 2011**

Due to rains in late December 2010 and early January 2011 a slope approximately 2.5 miles east of La Cañada Flintridge (LCF), was washed away by heavy rains and debris. **Due to the damage, the highway is estimated to open Spring 2011. The opening is subject to change.**

**Currently, SR-2 is closed between LCF and Angeles Forest Highway (AFH).** The highway is open from AFH (Clear Creek) to the junction of SR-2 and SR-39 (Islip Saddle). A winter season closure is currently in place at Islip Saddle.

Caltrans, the California Highway Patrol (CHP), and the Angeles National Forest would like to remind the public that SR-2 and the burn area of the forest is closed to the general public. Unpermitted access into the construction area could result in fines and possible arrest by law enforcement.
